"A POLITICIAN'S PROMISE"

One day, when I stop banging my head on the wall, maybe I will learn not to trust a promise from elected representatives. One recent example is where the Nedlands City Council decided to upgrade the Swanbourne foreshore. A joint submission from all the beach users was accepted and agreed to on an 8 to 3 vote. There were also plans for a "Yacht Club" venue to be built on top of the Surf Club for the America's Cup - all to revert to the Surf Club free, after the Cup.

Following a petition of 316 local residents (who never use its beach facilities) and some political pressure, the Council removed from the plan anything that was of benefit to the nudists, i.e. parking area, toilet/shower block, consolidated pathways. And I was stupid enough to believe that beaches were for the public, not just ratepayers.

The Minister for Lands and Surveys, Mr. McIver, also refused permission for the new Surf/"Yacht" Club complex (worth \$1.2 million). The residents were happy. However the State Government Cabinet overruled this and in keeping with its policy has allowed building to proceed. At least somebody has some common sense. The residents are now upset again. Maybe the Government will see fit to provide parking and toilets like any other beach. But they might change their minds again.

You are invited to join with us in the fourth Olympic games to be held at North Swanbourne free beach. Mark it on your calendar, write it on your wrist, tattoo it on your eyelids. But after all that don't forget to be there and participate.

WITH A LUNCH BREAK SOMEWHERE

During which the FREE SETTLERS MORRIS DANCERS will entertain.

Bring your family and friends - it is for all beach folk to enjoy.

If there is no sun on Sunday, then we move to next Sunday, etc.

Again a special thanks to all those warm people who donated time, effort, prizes and average-to-good jokes.

It is like a roller coaster ride - disconcerting but interesting. Hopefully we will get our money's (taxes) worth.

Morris Dancers

Direct from the cursades, guaranteed to increase your harvest, fertility and this year's nett profit margin, the famous FREE SETTLERS MORRIS DANCERS. They will entertain u during the lunch break in the Olympics and may be contacted on 368.2437 or 322.7355 for bookings. Wassail.

Cameras (again)

Normally if you wish to take photos at our beach we request that you ask first - its only common courtesy. However this is not always possible on the Olympics day. Some concern has been expressed relating to possible indiscriminate use of cameras (especially video cameras). Judging from comments made it is preferable that videos be left at home and we shall be keeping an eye on the use of cameras not in context with the games. Please report any dubious situations.
